

Emergency Equipment Compliance Platform

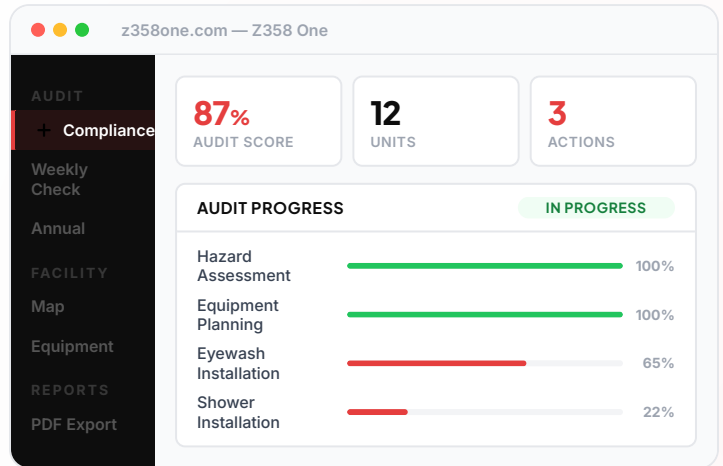

# Every inspection. Every audit. One platform.

Z358 One digitises your entire safety shower and eyewash compliance programme — from initial audit through weekly activations to annual formal inspections. Standards-aligned, permanently auditable.

ANSI Z358.1-2014 aligned

EN 15154 aligned

14-day free trial

01 · AUDIT

### Structured compliance audits

Phase-gated checklist aligned clause-by-clause to ANSI Z358.1-2014 §4–§10 and EN 15154. Non-compliant items auto-generate a required actions report.

ANSI §4–§10 · EN 15154

02 · INSPECT

### Weekly and annual inspections

Log every 7-day activation check and annual formal inspection — flow rate, temperature, spray pattern, inspector sign-off. Permanently timestamped to Appendix B.

Appendix B §B.1 · §B.2

03 · MAP

### Interactive facility mapping

Drag-and-drop 2D floor plan editor with full 3D isometric view. Automatic ANSI travel distance verification — every hazard zone confirmed within the 10-second / 55ft maximum.

ANSI §4.5 · Travel Distance

PLATFORM FEATURES

#### Equipment Register

Auto-synced from your Facility Map. Every eyewash and shower registered with location, type, and last inspection status.

#### Automatic Notifications

Weekly activation overdue alerts. Annual inspection reminders 30 days ahead. Audit failure notifications — immediate.

#### PDF Compliance Reports

Professional print-ready reports at any stage. Audit scores, required actions, equipment register, and inspector sign-off.

#### Multi-Site Dashboard

Manage unlimited facilities from a single dashboard. Compliance health, inspection status, and outstanding actions across every site.

#### Full Audit Trail

Every assessment, inspection, and sign-off permanently timestamped. Satisfies ANSI Appendix B and EN 15154 §7 documentation requirements.

#### 3D Facility Mapping

Switch between 2D edit mode and a full 3D isometric view. Accurate equipment models, hazard zones, and obstruction modelling.
